Alluring luxury and creature comforts exist in every artful detail aboard Cruisers Yachts. Neither form nor function takes precedence; instead, they strike a perfect balance.

### Take In Fresh Air & Natural Light

Open the screened stainless-steel portholes to enjoy the breeze off the open water. To bring more natural light and ventilation into cabin spaces, we also offer ventilating skylights with screens.

### Conquer the Elements with Cockpit Seating

Superior-comfort closed-cell foam repels water for longevity, and exposed seats contain no wood (which can rot). Plus, all upholstery uses piping to eliminate damage-causing exposed staples.

### Lounge in Luxury with UltraLeather Brisa®

Premium UltraLeather Brisa® seating is as durable and easy to clean as vinyl yet gives you the comfort and style of real leather. All interior seating on Cruisers 38'-56' Yachts feature UltraLeather Brisa®, standard.

### Discover Walk-Through Convenience

Enjoy easy access to the forward deck for docking, sunbathing or operating the windlass with convenient walk-through windshields. Standard on all Cruisers 30'-54' Express and Sports Coupe models.

### Plot Your Course in Comfort

Make your time at sea safe and enjoyable with ergonomic captain-friendly dashes that offer ample room for the necessary electronics. Cruiser Yachts make ease of navigation the norm for smooth sailing.

### Indulge in Elegant Living at Sea

Live aboard in warmth and style with hand-finished natural cherry or wenge flourishes. Galleys accented with striking stainless-steel sinks and designer fixtures add distinctive, sophisticated touches.

### Find What You're Looking For *Faster*

Keep cruising smoothly with spacious, well-organized engine bays and labeled components

### Trust in Expertly Design Drive Systems

With Volvo Penta IPS, the precision and control of joystick handling, and the advantages

### Delight in Unmatched Performance

We take a total-systems approach when designing vessels. The engine options and
